REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are allowable over the cited prior arts because said prior arts do not disclose or make obvious a method of preparing a microparticle comprising combining a first phase and a second phase which comprises a polymer and a solvent, and the second phase is aqueous; filtering a portion of the solvent from the emulsion to form a solvent increased separated phase; adding a quantity of an aqueous solution to the emulsion, and continuing the filtration and addition steps until microparticles are formed. The closest prior arts are the commonly-owned, common-inventor patents to Ramstack et al 5,650,173 and Rickey et al 5,792,477. These prior arts disclose methods for preparing microparticles wherein first and second phases are combined for the formation of microparticles, but there is no disclosure of filtration steps as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
